

Perfect harmony

— luxurious sound and elegant design.

Appearance that shows a serious commitment to sound

A simple layout with large speaker units in the left and right sections. With a beautiful speaker-like design and the wonderful sound you expect from Yamaha, the YAS-152 brings you true enjoyment.

Beautiful exterior with mirror finish

With a fascinating mirror finish that reminds you of a grand piano, this is a beautiful exterior. As the body reflects its surroundings, it blends beautifully into the room interior, creating a space with a powerful image.

Sound disseminates from a musical instrument-like curved surface

An impressive 1200 mm wide body. A graceful, gently curving design. With a shape that brings to mind stringed instruments, the YAS-152 produces realistic sound that provides a feeling of rich expansiveness.

The size and powerful sound are perfect for large screen TVs.

Bluetooth[®] is built in and control via a smartphone app is possible.

This is a one-body sound bar for enjoying TV or music easily and with high sound quality.

Made for

 iPod
  iPhone
  iPad

High Sound Quality

- Delivers powerful sound with exceptional presence, perfect for large screen TVs
- Integrated system equipped with dual front speakers and dual built-in subwoofers
- Large volume cabinet reproduces TV sound with high sound quality
- Dual built-in subwoofers deliver powerful bass sounds with superior imaging
- Bass reflex port contributes to deeper, richer bass

Surround Realism

- AIR SURROUND XTREME provides powerful surround sound
- Compatible with various surround sound formats

Practical Sound Features

- Clear Voice makes dialogue and narrations easy to hear
- UniVolume keeps programmes and commercials at the same volume level

The YAS-152 is available with black and white finish.

Smartphone support for greater operating pleasure

- *Bluetooth* wireless music streaming from smartphone/tablet
- Home Theater Controller App for Easy Operations

High Quality Design, Convenient Placement

- Size and design matched to 55", 60" and larger TVs
- Stylish design achieves both visual beauty and ease of use
- Slim, low-profile, one-body design allows positioning in front of a TV
- TV Remote Repeater forwards infrared signals even if obstructed

High Sound Quality

Integrated System with Dual Front Speakers and Dual Subwoofers Delivers Powerful Sound with Exceptional Presence, Perfect for Large Screen TVs

The YAS-152 is a wide sound bar that matches 55 to 60 inch large screen TVs. Its integrated body is equipped with two 6.5 cm speakers, two 8.5 cm subwoofers, and a digital amp with 120 W total output. The speaker and subwoofer units are separated to the left and right sides, for sound with breadth and superior imaging suitable for a large screen. The wide shape and superior sound bar design achieve larger cabinet capacity, letting you enjoy TV sound with richly powerful bass.

Dual Built-in Subwoofers with Superior Imaging Powerfully Reproduce Bass Sounds

The dual built-in subwoofers employ large magnets and large-diameter voice coils to realise dynamic and robust bass sound reproduction. This ensures that the overall sound has a rich sense of presence, making movie effect sounds more realistic.

Bass Reflex Port Contributes to Deeper, Richer Bass

The YAS-152 employs a bass reflex port that has a straight shape and adequate length to provide outstanding bass response together with the large volume cabinet. The duct outlet is shaped like a trumpet bell, which reduces wind noise for better sound clarity.

Surround Realism

AIR SURROUND XTREME Provides Powerful Surround Sound.

Yamaha's exclusive AIR SURROUND XTREME reproduces 7.1-channel surround sound with high quality, excellent imaging and rich presence, far superior to that of any other soundbar. You'll experience an extremely realistic and impressive sound field, with clear dialogue in the front and dynamic sound action at the back.

Compatible with Various Surround Sound Formats

The YAS-152 is compatible with popular surround sound formats, such as Dolby Digital and DTS Digital Surround, so you get the full effect of multichannel movie sound.

Practical Sound Features

Clear Voice Makes Dialogue and Narrations Easy to Hear

Clear Voice raises the level of dialogue and narrations while maintaining overall sound quality. Movies and TV shows, sports commentary and news broadcasts are more clearly audible.

UniVolume Maintains the Same Volume Level

This welcome feature, made possible by Yamaha-developed technology, maintains a consistent volume level between different channels, programmes, commercials and input sources. It can be switched on and off.

Use your smartphone support for greater operating pleasure

Bluetooth Wireless Music Streaming from Your Smartphone or Tablet

Enjoy the sound of music or movies from your smartphone or tablet wirelessly. While watching the screen, it's easy to perform select, play and stop operations, as you enjoy sound backed by the power of the YAS-152. It has a *Bluetooth* standby mode, so by linking to *Bluetooth* on/off via the terminal, you get the convenience of the YAS-152 turning on and off automatically.

Home Theater Controller App for Easy Operation

The YAS-152 is compatible with a free app controller (HT Controller) for iOS and Android. Its easy-to-see and easy-to-use operating screen uses icons to let you easily perform a variety of operations including setting surround programmes or sound quality while watching your smartphone or tablet screen.

High Quality Design, Easy to Use

Size and Design Matched to 55", 60" and Larger TVs

The 120 cm wide YAS-152 is almost the same width as a 55 inch TV, so it looks just right when combined with large TVs from 55 to 65 inches. It comes in two colours, black and white, so you can choose the one that best suits your TV or room interior.

Stylish Design Achieves Both Visual Beauty and Ease of Use

Low enough to be placed neatly in front of a TV, the body has an elegantly curved front surface. Its glossy black finish matches flat-screen TVs and will add a stylish accent to your entertainment area.

Low Style Design Further Reduces Height, for Convenient Positioning in Front of a TV Set

With a height of only 10.8 cm, the soundbar can be easily positioned in front of a TV so it straddles the TV stand. With the stand removed, the height can be adjusted.

TV Remote Repeater for Signal Transmission

Even if the YAS-152 blocks the TV's remote control signal, the TV Remote Repeater on the back transmits the signal to the TV so operation is not affected.

Other Notable Features

- Learning Function Allows Operation with the TV Remote Control
- Audio Delay Control (Lip Sync)
- Jack for an Extra Subwoofer
