High-quality sound and Unique shape
make it a work of art

Music Has Never Been More Fashionable.

Great sound quality is important, but it's not everything. The things you wear should look nice and feel comfortable. That's why Yamaha's new HPH-M82 headphones look every bit as good as they sound. Wherever you go, take your music with you—in style.

Gold

Quality Feel, Elegant Design

The HPH-M82 headphones are beautifully designed with unique diamond-shaped housings and an elegant twist in the connecting headband. Choose from a range of six colors, including fashionable navy blue and red relating to Yamaha Motor's finished products. Color-coordinated cables and remotes add to the sophisticated design aesthetic, lending the headphones a feeling of quality and refinement.

A Perfect Fit

Following the design of the housing, the diamond-shaped ear pads provide a perfect fit for the ears, while the use of nylon-fiber covered foam ensure a high level of comfort. Naturally, the headband is fully adjustable to suit the wearer.

Your Favorite Music as It Deserves to Be Heard

Sound quality is assured with a newly developed 40 mm (1-5/8") driver unit employing Yamaha's unique Tangential Edge diaphragm of superior stiffness and flexibility. Sound leakage is minimized thanks to the shape of the housings that fit snugly over the ears. Through the use of high-quality components and precise tuning, the HPH-M82 headphones are highly musical and natural-sounding over a wide frequency range, making them ideal for all genres of music.

iPhone/iPod/iPad-Compatible Remote Control/Microphone

The 1.2-meter (47-1/4") cable has an iPhone/iPod/iPad-compatible in-line remote control/microphone you can use to select tracks and adjust the volume, as well as use for voice communications.

The convenience and simplicity of the remote control/microphone means you can leave your player in your pocket or bag. The high-quality specification is maintained down to the gold-plated connection plug.
