## Solution Overview

With the new wired Tabletop Array Microphone "RM-TT", users have more flexibility to customize ADECIA to their use case.

1 Tabletop Array Microphone RM-TT

Tabletop array microphones provide a comfortable sound environment with no configuration needed.

2 Remote Conference Processor RM-CR

Signal processor at the heart of the ADECIA.

3 Dante/PoE Powered Speaker VXL1-16P

Dante powered speaker for installation that realizes operation with PoE power supply.

**4 Intelligent L2 Network Switch with PoE SWR2311P-10G**

Recommended settings for stable operation of a Dante network (such as QoS, EEE, and IGMP Snooping) can be made easily.
